📍 Clayville, Thembisa, SA

EDUCATION

2012 – 2016
NYUMBANI HIGH SCHOOL

- NSC Admission to Bachelor's degree

2020 – 2022
TSHWANE UNIVERSITY OF TECHNOLOGY

- Diploma Computer science

TECHNICAL SKILLS

- PowerShell
- TSQL and PLSQL
- JAVA
- PowerBI
- AD and Azure AD
- SSO, MFA and RBAC
- AVEKSA(RSA IGL)
- ETL
- Denodo
- Java
- Web API
- Data Pipeline
- Data Integration
- Data modelling

PROFILE

As an Identity Access Governance Specialist with a passion for data-driven insights, I excel in designing and implementing robust security solutions that ensure compliant access controls. With expertise in report development using visualization tools like Microsoft Power BI and RSA platforms, I transform complex data into actionable intelligence. Collaborating closely with stakeholders to drive informed decision-making, my unique blend of technical and analytical skills enables me to bridge the gap between security, compliance, and business strategy.

WORK EXPERIENCE

MTN   2023 AUG – 2025 NOV
IAM Security Engineer Third Party

- **Implementing and Maintaining Identity Lifecycle Workflows:** Automating provisioning processes, managing integration between core identity platforms and enterprise systems, and ensuring accurate identity data across platforms.
- **Developing Reporting and Analytics Solutions:** Designing and building Key Performance Indicators (KPIs), Power BI dashboards, and reports to track identity governance metrics, identify trends, and inform business decisions.
- **Managing Access Reviews and Supporting Campaigns:** Configuring, managing, and supporting access review campaigns to ensure users have appropriate access rights, and certifying access to sensitive resources and systems.
- **Integrating Identity Governance Solutions:** Working with Active Directory (AD), REST APIs, and other platforms to integrate identity governance solutions, automate tasks, and ensure seamless identity management across multiple systems.
- **Troubleshooting and Resolving Complex Issues:** Providing technical expertise to troubleshoot and resolve complex issues related to identity governance, and supporting users with identity-related queries and problems.

Hosi Technologies   2023 AUG – PRESENT
IAM Security Engineer

Developing Reporting and Analytics Solutions: Designing and building Key Performance Indicators (KPIs), Power BI dashboards, and reports to track identity governance metrics, identify trends, and inform business decisions.

OTHER SKILLS

- Time Management
- Teamwork
- Effective Communication
- Critical Thinking

TOOLS

- Visual studio
- AB Nitio
- Java IDE (NetBeans)
- Postman
- SoapUI
- LDAP – Apache Directory Studio
- SQL Server Integration Services
- SQL Server Reporting Services
- DBeaver CE
- SSMS

LANGUAGES

- English (Fluent)
- Xitsongo (Fluent)
- IsiZulu (fluent)

CERTIFICATES

- Microsoft Power BI
- Cisco – Data analytics essential
- Cisco – Intro to Cyber security
- CompTIA Security +
- RSA – ID plus technical
- RSA – Governance & Lifecycle Technical
- RSA – SecurID Plus Technical
